

The Batty Bat

The Count with Ftatateeta & The Bats

Concert transposition

Freely

In old Transylvania when

I was a lad, our castle was cold, yet we never were sad. We learned to be

happy! We danced 'round the hall. And learning to count was the key to it

all. By counting each count I knew just where to start And one special

step stayed close to my heart... One two three,

Spread out the cape One two three, Twirl 'round the floor One two three, Left foot you swing

One two three, Then start to sing One two three, Loud as you please One two three,

Counting with ease One two three, Doing The Batty Bat! Batty bat-ty

Verse 2

So now in my own castle I can enjoy
 This wonderful dance that I learned as a boy
 I see just how wise was my whole family
 They taught me to count and so now look at me
 I'm counting and dancing and I swear that it's true
 If you do the same you will be happy too...

Come, we try again!
